Work Experience

E-Commerce Frontend Developer (Contract) Oct. 2023 – present
Nitecore Store | *Shopify, JavaScript, HTML, CSS, Figma* *Austin, TX*

- Developing a new Shopify storefront by transferring bulk product data from an old CMS and applying a modern theme.
- Creating mockups and product designs for storefront features with Figma.

Frontend Developer Austin, TX
AssetMark | *Ember, AJAX, JavaScript, HTML, Bootstrap, Git* *May 2022 – Oct. 2023*

- Developed usability and security enhancements for five web applications, benefiting over 300 private labels and six enterprise clients.
- Introduced a two-factor authentication mechanism via SMS verification, significantly boosting app security.
- Empowered advisors with the ability to manage capital market assumptions and receive update notifications on both advisor and client dashboards.
- Automated the generation of over 50 settings for custom reports.
- Designed a secure user interface for profile data modification, incorporating client-side validations and REST API integrations.
- Streamlined the onboarding process for new users by introducing a one-time password feature.
- Expanded language support to include English and French for a Canadian user base.

Frontend Developer Intern Austin, TX
Growth Acceleration Partners | *JavaScript, React, Redux, WordPress, Git* *Aug. 2021 – May 2022*

- Developed a tool that displays real-time staffing costs for development staff in different locations, leading to successful client engagements.
- Created features and connected APIs for an employee profile dashboard.
- Implemented SEO and edited content on WordPress website.

Projects

Single-Page Portfolio Website | *React, TypeScript, TailWind, Vercel, HTML, CSS* *Feb. 2024*

- Crafted and launched a comprehensive single-page portfolio, demonstrating usage of cutting-edge technologies and showcasing previous projects.

Education

University of Texas at Dallas Richardson, TX
Bachelor's of Science in Computer Science *Aug. 2017 – May 2022*
