Developer Tools: Git, NPM, Visual Studio, Jira, Chrome DevTools, React Developer Tools, Ember Inspector
Development Methodologies: Object-Oriented Programming, MVC, Agile/Scrum, SLDC, CRUD, UI/UX Design, Responsive Design
Databases: Oracle, MySQL
Preprocessors: SASS, SCSS
Web Content Management: Shopify, WordPress, Volusion

Work Experience

E-Commerce Frontend Developer
Longhorn Tactical LLC

(Contract) Oct. 2023 – present

Austin, TX

- Developing custom theme in Shopify for storefront and migrating product data from Volusion with Liquid, HTML, CSS, JavaScript, and Apps Script.
- Create mockups and product designs for storefront features with Figma.

Frontend Developer
AssetMark

Austin, TX

May 2022 – Oct. 2023

- Developed 2-step authentication via text message support across 5 web applications. Ember, JavaScript, ES6, AJAX, REST, HTML, SCSS, Bootstrap, MVC, QUnit, Responsive Design, UI/UX Design
- Implemented usability and security features across 5 web applications. Ember, JavaScript, ES6, AJAX, REST, HTML, SCSS, Bootstrap, MVC, CRUD, QUnit, Responsive Design, UI/UX Design

    - Allowed users to securely edit their profile data (email, password, phone, etc.) with client validations and REST API connections.

    - Enabled advisors to add, edit, and delete capital market assumptions and receive notifications about updates to advisor and client dashboards.

    - Intelligently generate 50+ default settings for custom reports.

    - Increased user's calculation options for a feature by connecting 50+ configurations to an API.

    - Simplified onboarding new product users via implementing an one-time password feature.

    - Implemented alerts in user's dashboard for upcoming events and maintenance schedules.

    - Added responsive support with CSS and Bootstrap. Adhered to W3C accessibility standards.

    - Added English and French support for Canadian users by adding an Intl package dependency with NPM.
- Implemented QUnit integration tests for all features developed.

Frontend Developer Intern
Growth Acceleration Partners

Austin, TX

Aug. 2021 – May 2022

- Developed a tool that displays real-time staffing costs for development staff in different locations, leading to successful client engagements. JavaScript, Apps Script
- Created features and connected APIs for an employee profile dashboard. React, Redux, JavaScript, Axios, HTML, CSS, Git
- Implemented SEO and edited content on WordPress website. WordPress, SEO, PHP

Education

University of Texas at Dallas
Bachelor's of Science in Computer Science

Richardson, TX

Aug. 2017 – May 2022
